Freer practice

What 'conditions' are you 'under' at the moment?

- E.g. I have to go straight home from class tonight.
I have to go to work tomorrow.
I have to go to a wedding on Saturday.
I want to watch the game tomorrow.
I want to have pasta for dinner tonight.

Discuss with your partner what results will/would happen if these conditions don't / didn't take place.

- E.g. If I didn't go straight home tonight, my wife would kill me.
If I didn't go to work tomorrow, I would have to get a doctor's certificate.
If I didn't go to the wedding on Saturday, my best friend would never talk to me again.
If I don't watch the game tomorrow, I'll see the highlights on the news.
If we don't have pasta for dinner tonight, maybe we'll have a pizza.

Do you agree your partner has chosen the correct un/real conditions and results?
